

Case Erectors

Automatic Case Erectors

Innovation

Designed to minimize your biggest problem -
Machine Jams

Automatic Case Erector

Faster, safer, more productive
than manually formed cases

Fewer machine jams than
other erectors in its class

Compact, small footprint

C300

Quick and Easy for Operator

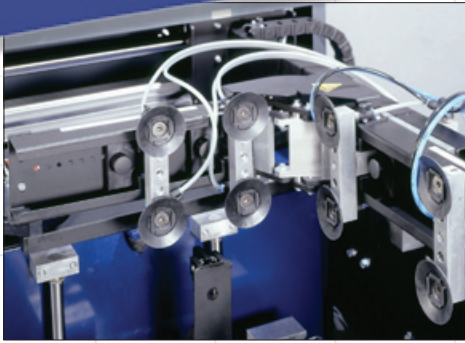

Ergonomic design of
magazine allows easy
loading of blanks

Adjustment wheels,
counters, and "help"
chart make case
adjustments easy to do

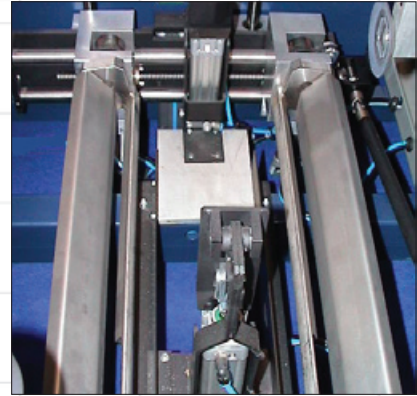

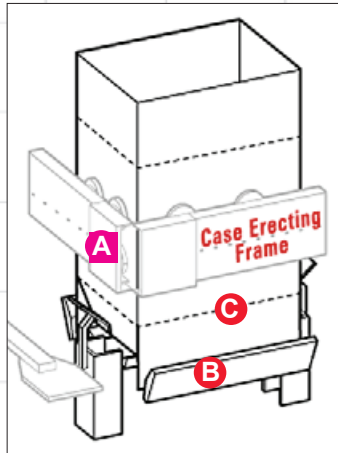

C1000 / C2000

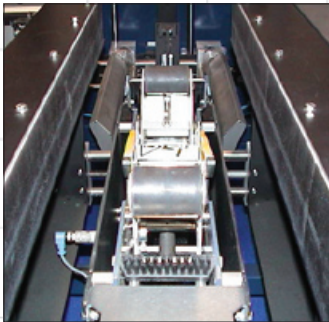

CASE ERECTORS

Unique hinged pickup and folding frame reliably opens cases by placing erecting frame suction cups on two panels of blanks **A**

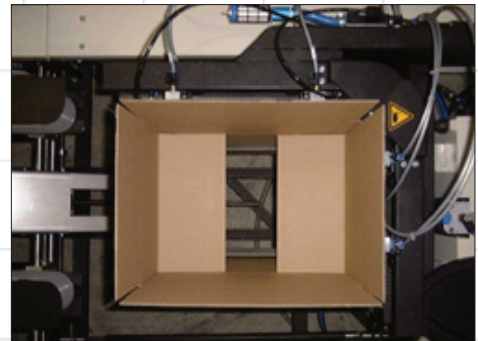

Innovative slotted flap folders fold majors along entire length for maximum control **B**

Belt driven exit drive pulls case over tape head or to glue station

Eliminates Machine Jams

Erects cases with imperfect glue joints

All flaps folded while case is held square in the erecting frame **C**

Case Erector Specifications

PERFORMANCE CRITERIA**

- Throughput Speed
- Case Size Minimum (O.D.)

C-300
10 cases per minute
7 7/8"L x 5 7/8"W x 3 7/8"H

C-1000
15-22 cases per minute
7 7/8"L x 5 7/8"W x 3 7/8"H

C-2000
10-15 cases per minute
7 7/8"L x 5 7/8"W x 3 7/8"H

- Case Size Maximum (O.D.)

19 5/8"L x 13 3/4"W x 20 3/4"H

19 3/4"L x 12 3/4"W x 18 3/4"H

25 5/8"L x 17 3/4"W x 23 7/8"H

** Minimum and maximum case heights vary depending on case widths.
